

Advanced Solutions
for Document Processing

MY VISION X™ SINGLE DOCUMENT

The My Vision X™ SD

The Panini My Vision X™ Single Document (SD) check scanner provides an economic entry solution for low volume check or document processing with the proven robustness, reliability, and scalability of the My Vision X family of products. With the Panini My Vision X™ portfolio of Distributed Capture Solutions, Panini customers can fully realize the advantages and efficiencies available with the digital transformation of the paper check.

“The Panini My Vision X™ Series is the optimal scanner solution.”

Michael Branigan, Senior Product Manager
BANKLINK

Customer Response

“We have been selling the Panini My Vision X series of scanners for the past two years and have had an amazing response from our clients for both the quality of the units as well as ease of use and installation. In fact, over 150 of our clients have successfully deployed Panini scanners in the last 12 months. The New My Vision X Single Document (SD) model, with its lower cost, will further enable growth for many of our clients who need the ability to deploy scanners across large numbers of customer locations. In addition, with the option to upgrade as deposit volume grows, the Panini My Vision X series is the optimal scanner solution,” says Michael Branigan, Senior Product Manager, BANKLINK

Benefits

- Economic entry level solution that can be placed at low volume locations without compromising image quality, MICR reading, or scalability, ensuring lower cost transactions while minimizing errors and manual intervention
- Ability to match performance requirements with a low volume, single feed solution
- Ergonomic feeder with automatic document detection and feeding, eliminating the need to manually feed documents
- Maintains the proven robustness and reliability of the My Vision X family of products, providing the lowest Total Cost of Ownership

Benefits cont.

- Same small footprint and quiet operation as other members of the My Vision X family
- Ensures full compatibility and easy integration with the Panini family of products, ensuring investment protection with the lowest cost of deployment and support
- Preserves the “U shaped” track wall for outstanding document handling and easy removal of jams or foreign objects
- Two image camera offering the ability to capture the front and rear image of documents in a single pass
- Includes a large exit pocket ideal for maintaining transaction integrity

Hardware Characteristics

- **Single Document (SD) feeder**
- **Front and Rear Image Capture**
- **MICR Reading E13B or CMC7**
- **Exit Pocket**
Up to 100 documents
- **Panini Vision API**
- **USB2 Interface with Cable**
- **Image Format**
200 dots per inch (dpi),
black and white & grayscale,
BMP, TIFF, JPEG, and G4
- **External Power Supply**
115/230 volt
- **Optional Inkjet Printer**
REG CC compliant

Software Characteristics

Utilizes the Panini Vision API and is software compatible with the complete My Vision X family.

Upgradeable via the Panini Depot Service Center where the Panini provides the necessary mechanical and software changes to increase the device to the 30, 60, or 90DPM model, and autfeeder capacity up to 100 documents.

About Panini

Panini offers check capture solutions that help customers fully realize the advantages and efficiencies available with the digital transformation of the paper check. Panini's scalable check capture solutions address the complete range of distributed check processing opportunities.
